I have a doctor's appointment at 12:30 on Wednesday, so I'm not comfortable with scheduling anything in between 12:15 and 1:30 pm. But if my presence isn't necessary then I'm totally fine with missing the call.

Ok. Don't rush, I think you should wait so we can tell them in honesty that we're still evaluating. We don't want to confuse this overview/closing conference with a 113.

I can make a call at 1pm on Wednesday work. I have another conference call at that time but I don't have to be on it specifically.

I have to do some more digging and evaluation if the footage shows any violations.

Thanks,  
Patrick

Hi Marie, thanks for sending.

Pat (Gallo) called me Friday afternoon (5p) asking to set up a time for a closing conference. I said I'd poll the group and get back to him with a time, but he said Wednesday afternoon around 1p works best for them. Would that work for you both?

I asked for (and received) benzene monitoring results from Pat and Chris when I was out last week, but I didn't ask for VE sheets. Maybe you can clarify that request? We should ask for any PFD showing COG pathways from the ovens to the BP, so we should ask for those too.

Bill asked that we take another look at the NOV before he reviews it. Patrick - do you have any violations to add in?

Thanks.

Gina

Draft of email to Patrick Gallo is below. There is no other information that we need from the currently, correct?

I can send this email or you can, either is fine. If you want me to send it, then please just insert your availability and I can go from there. My availability is up to date on my calendar.

Thanks,  
Marie

---

Hi Patrick,

As [I/Marie St. Peter] discussed during the closing conference held on May 24, 2018 (May 24<sup>th</sup> closing conference) we are reaching out to set up a call such that parties can speak about activities that occurred on May 23, 2018. [insert things about dates and times that work for us]. Marie/I's understanding that all individuals on this call will be technical staff.

Secondly, during the May 24<sup>th</sup> closing conference, I/Marie asked for copies of the completed inspection sheets used for recording observation(s) of visible emissions from the coke battery pursuant to Method 303 for the past 30 days (April 30 – May 24, 2018) but it was believed that information had already been provided to someone at US EPA, most likely Gina. Gina does not have these records though, so at this time I/she is asking for these records again. Specifically, records required pursuant to §63.308 (collecting main inspection and recordkeeping by owner/operator), § 63.309(e) for the period of April 30 – May 24, 2018. Please provide these records at least 48 hours in advance of the call we set up so that we are able to review them and ask any questions we have at that time regarding those records.

Finally, due to our request for information through this email already, we are also requesting that you provide us with a site diagram that identifies your emission sources. Please provide this within 14 days. If there are any issues with completing this request within 14 days, let us know so we can discuss the issue.

Thanks,  
[Whoever sends this]
